CAREER OBJECTIVE

Recent B.Tech (Electronics and Communication Engineering) graduate with a strong foundation in cybersecurity, digital forensics, and network security, complemented by hands-on exposure to ServiceNow ITSM administration and data analysis. Seeking an entry-level opportunity as a SOC Analyst / Cybersecurity Analyst, with the versatility to contribute effectively as a ServiceNow Administrator, Network Administrator, or Data Analyst. Eager to apply analytical and technical skills to strengthen organizational security, streamline IT service delivery, and support data-driven decision-making.

KEY SKILLS

Programming & Query Languages: Python, C++, SQL

Cybersecurity Domains: Network Security Basics, Digital Forensics, Vulnerability Assessment, OSINT, Web Application Security, Email Security & Phishing Awareness, Incident Response Fundamentals, Malware Analysis Basics, Firewall & IDS Concepts, VPN Basics, IP Addressing (IPv4/IPv6), Security Monitoring

Digital Forensics & Investigation: Chain of Custody Documentation, Disk Imaging Basics, Memory (RAM) Forensics Fundamentals, Deleted File Recovery, Hash Verification (MD5/SHA-256), Log Analysis, Evidence Reporting

Cybersecurity & Forensics Tools: Kali Linux, Nmap, Wireshark, Burp Suite, Metasploit Framework, FTK Imager, Autopsy, Volatility Framework, VMware, WHOIS, VirusTotal, Hydra

ServiceNow (ITSM Fundamentals): Incident Management, Change Management, Problem Management, Service Catalog, CMDB Basics, Request Fulfillment, SLAs, Basic Workflow Automation, ITIL Fundamentals

Data Analysis & BI: Data Cleaning & Preprocessing, Exploratory Data Analysis (EDA), Basic Statistical Analysis, Data Visualization, Dashboard Reporting; Tools: MS Excel (Pivot Tables, VLOOKUP), Power BI, Tableau, Python (Pandas, NumPy, Matplotlib)

Software & Databases: MS Office, Tkinter, SQLite, MySQL, Git, Jupyter Notebook

Core Knowledge: VLSI Design and Verification, Embedded Systems, IT Fundamentals, Data Structures, Statistics & Probability, Basic Computer Knowledge

EDUCATION

B.Tech (ECE) — Sri Shivani College of Engineering, Chilakapalem — 2022–2026 — CGPA: 7.37/10 (68.69%)

Intermediate — Sri Chaitanya Junior College, Visakhapatnam — 2016–2018 — 827/1000 (82.7%)

SSC (10th) — Victory School, Pathapatnam — 2016 — GPA: 9.0/10 (88.0%)

PROJECTS

Cybersecurity Forensic Investigation — Simulated Data Breach Analysis

- Conducted a digital forensic investigation on a simulated compromised system following a structured incident response methodology (Identification, Preservation, Collection, Examination, Analysis, Reporting).
- Acquired a forensically sound disk image using FTK Imager and verified data integrity via MD5/SHA-256 hash comparison; performed memory (RAM) forensics using the Volatility Framework to identify malicious processes and active network connections.
- Recovered deleted files with Autopsy and reconstructed attacker activity timeline by correlating host logs with Wireshark packet captures.

ServiceNow Incident Management

- Designed and developed a ServiceNow Incident Management module with automated ticket categorization, priority assignment, and SLA tracking using Business Rules and Workflow automation.
- Configured Service Catalog and Request Fulfillment workflows to streamline request handling and improve response times.

Efficient Multi-Class Brain Tumor Classification Using Lightweight CNN Architecture on MRI Images

- Developed a lightweight Convolutional Neural Network (CNN) model for brain tumor classification using MRI images with improved accuracy.
- Optimized the model architecture to significantly reduce computational costs while maintaining robust classification performance.

Student Result Management System

- Developed a desktop application using Python and Tkinter GUI framework to manage and organize student records efficiently, with an SQLite database backend for automated grade calculation and secure report generation.

INTERNSHIPS AND CERTIFICATIONS

- **Certified Cyber Resilience and Forensic Investigator (CCRFI)**, Sytech Labs Pvt. Ltd — Practical training in network security, OSINT, vulnerability assessment, web application security, malware analysis, digital forensics, and incident response. Hands-on experience with Kali Linux, Wireshark, Nmap, Burp Suite, Metasploit Framework, and FTK Imager.
- **Data Analytics Job Simulation, Deloitte (Forage)** — Practical corporate simulation in data analysis, data engineering, and forensic technology.
- **Introduction to Cybersecurity Job Simulation, Commonwealth Bank (Forage)** — Hands-on experience in data analysis, incident response, security awareness, and penetration testing.
- **Tata Cybersecurity Security Analyst Job Simulation, Forage (TCS)** — Identity and access management (IAM), cybersecurity best practices, and technical documentation.
- **Artificial Intelligence Certification** — Infosys Foundation Finishing School for Employability Program.
- **VLSI Design and Verification Internship** — Functional verification, logic synthesis, and digital hardware design concepts.

STRENGTHS

- Self-motivated and hardworking, with a results-driven approach.
- Proven ability to perform efficiently and maintain focus under pressure.
- Quick learner with strong problem-solving and analytical capabilities.
- Collaborative team player with excellent communication and interpersonal skills.

PERSONAL DETAILS

Father's Name: Vanjangi Indradyumnudu

Mother's Name: Vanjangi Sobharani

Date of Birth: 7 April 2001

Nationality: Indian

Religion: Hindu

Marital Status: Unmarried

Languages Known: Telugu, English, Hindi

DECLARATION

I, Vanjangi Sai Krishna, hereby declare that the information furnished above is true, complete, and accurate to the best of my knowledge and belief. I understand that any discrepancy found may render me liable for disciplinary action or cancellation of my candidature at any stage of the selection process.

Place: Visakhapatnam
